KMA Remarketing Corporation

Healthcare Professionals Serving Your Unique Needs.

Our company was founded in 1993 by healthcare Professionals who recognized two fundamental principles. The first being the great need for affordable, quality medical, EMS and rescue products throughout the world. The second was the awareness of the tremendous amount of equipment available from many sources throughout the United States and Canada. With these necessary elements of supply and demand present, our company was born.

KMA Remarketing Corporation Has Been Developed on the Cornerstones of Integrity, Diligence, Cost Containment and Quality Products.

The culmination of such ideals ultimately leads to the highest levels of customer satisfaction. More importantly, with over 100 years of combined experience as healthcare providers ourselves, the management team at KMA Remarketing Corporation never loses its vision for providing quality patient care. This commitment to both the professional health care provider and the patient is what, we feel, sets KMA Remarketing Corporation apart from all other pre-owned medical equipment and services companies.
